

CULTURAL, ENTERTAINMENT AND RECREATION

The evaluation of cultural, entertainment and recreation land uses in Kinston involves the evaluation of the total of these uses instead of separate evaluations. The reason for this total evaluation is that cultural, entertainment and recreation are interrelated and it is sometimes hard to differ between these uses. For example, a baseball game is entertainment for many people and on the other hand, it is recreation for those who play the game.

To evaluate this category of land use, it will be necessary to reflect what Kinston has, then compare with standards to see what is needed. The following are the existing land uses as reflected in the 1971 land use survey.
